

ELL3 • Unit 1 • September

The Exact Thing: Lesson 2 Worksheet*Cold Start: First Reading*

Name: _____ Date: _____

Goal for this lesson

Read a short unseen text without help, and answer questions about it in writing.

Learning outcomes: W1 Use familiar and some academic language • W5 Write complex sentences with because • W14 Write complete sentences with very few errors**Part A — Vocabulary***Fill each blank with a word from the word bank. Each word is used once. Two words are extra. Cross out each word as you use it.***Word bank**

context	setting	passage
fiction	inference	plot
strategy	literal	evidence

Ex. (*example*) Writing about invented people and events is fiction.

1. A meaning that is stated directly on the page is _____.
2. Something the text suggests but does not state is an _____.
3. The words in the text that support your answer are your _____.
4. The words around a word that help you guess it are its _____.
5. A method you use on purpose to understand something is a _____.
6. A short section of a longer text is a _____.

Part B — Which kind of question?

Is the answer on the page, or do you work it out from clues? Write *LITERAL* or *INFERENCE*.

Ex. (example) What colour is the front door? LITERAL

1. What time does the shop close? _____
2. How many people are in the room? _____
3. Why does she wait outside instead of going in? _____
4. Where does the family live now? _____
5. What is the narrator not telling us? _____
6. What kind of person is the narrator's brother? _____

Part C — On the page

Use "The Long Way Home." The answer to every question is written in the story. Give the line number.

Ex. (example) Where does Arman's mother hang the washing?

On the balcony (line 2).

1. How long does the 407 take to come all the way around?

2. What is at Arman's own bus stop?

3. At which stop does Arman get off the bus?

4. What does Faraj sell?

5. What time does Arman pack his bag?

6. When is the bakery closed?

Part D — Underneath the page

The story does not say these answers. Work them out from clues, and show the clue.

How Part D is marked

Every answer needs two things: what you think, and what made you think it. An answer with no evidence scores nothing, even when it is right. An answer that quotes the story but makes no claim scores nothing either.

Sentence frame: *I think _____ because the story says " _____ " (line __).*

Ex. **(example)** What does the story tell you about Arman's father?

I think his father is very tired because the story says he "is asleep at four in the afternoon because he works nights" (line 14).

1. Why does Arman count in Farsi rather than in English? Use the text.

2. Faraj stops taking Arman's money and neither of them mentions it. What does this tell you about Faraj?

3. Arman's mother asks "Where were you?" twice. What has changed between the two times?

4. The bakery is closed and Arman still does not go home. What does this tell you about what he is really looking for?

5. Why does the story end with the washing instead of with Arman?

Part E — Your reading strategies

You have just read a story without help. List every strategy you used, including ones nobody taught you. One strategy per line.

Ex. (example) *I read to the end of the sentence before I decided a word was too hard.*

Part F — Check your understanding

Answer in complete sentences.

Ex. (example) Why does an answer in Part C need a line number?

A line number shows exactly where the answer is written, so the reader can check it.

1. Why does every inference answer need a because?

2. A text says a boy pulls his hood up. Write one literal question and one inference question about that sentence.

Part G — Check your work

Tick each box when it is true.

- | | |
|--|---|
| ☐ I answered every question, even when I guessed. | ☐ Every Part C answer has a line number. |
| ☐ Every Part D answer says what I think AND why. | ☐ I used words from the story as evidence. |
| ☐ I wrote complete sentences where the question asked for them. | ☐ My name and the date are at the top. |

Part H — Exit ticket

Answer before you leave. Then put this sheet in your duotang.

1. Name one strategy you used today without being told to use it.

2. Which was harder, the literal questions or the inference questions? Why?
